

Capability Statement

Amstel Foyle Consulting is a specialist Australian technology consulting firm supporting complex transformation, portfolio, governance, regulatory and delivery environments.

We provide senior-led support for executives who need delivery confidence, practical governance and clear transformation outcomes.

Core capabilities

Transformation delivery	Portfolio, program and project leadership across large-scale technology change.
Risk and assurance	Independent delivery health checks, governance uplift and recovery support.
Portfolio management	Strategic portfolio management, PPM/SPM implementation and investment governance.
Regulatory programs	Pragmatic delivery leadership for hard-deadline regulatory change.
Cloud and platforms	Cloud, integration, support model and operating model advisory.
